QTS QuikEnvision Customer Conference 2009

Keynote Presenters

Neil Rosenberg , President & CEO Quality Technology Solutions, Inc.

Neil Rosenberg has been leading QTS and providing strategic direction for QTS and its customers for over 16 years. With over 20 years of industry experience across a wide range of technologies and industries, Mr. Rosenberg is an expert at assessing a customer's business and technology needs, and identifying an appropriate IT solution and strategy to solve the customer's problem. Mr. Rosenberg's strong experience in project and transition management is a critical factor that he brings to QTS and to its clients.

Mr. Rosenberg holds technical certifications from Microsoft, Cisco, Symantec and other vendors, as well as the vendor independent CISSP certification, and consulting certifications from VMware, NetApp, Citrix, Symantec, Cisco and others, demonstrating a solid foundation of technical skills to complement his management background. Mr. Rosenberg has presented on various topics at the NJ State Bar Convention, LegalTech, the NY State Society of CPAs, New Jersey iTech, the Newark Technology Group, and at numerous Microsoft seminars and other forums, and keynoted the NJ Tech Council CIO Conference on Virtualization in 2009.

Mr. Rosenberg also brings to QTS his background as an attorney and a member of the New Jersey Bar. Mr. Rosenberg graduated from Rutgers College with honors in History and English, and then Rutgers Law School. Mr. Rosenberg is a regular speaker on technology integration and security. He is also a published author of numerous articles, including a six article series for the New York State Society of CPAs newsletter and articles in 2002, 2005, 2006, 2007, 2008 and 2009 for the New Jersey State Society of CPAs' magazine, New Jersey CPA.

Jack Braman, US East Regional Vice President, SMS&P Microsoft Corporation

Jack Braman leads the East Region for Microsoft's SMS&P Group in the United States. In this capacity, he is responsible for small & mid-market solutions strategy, partner marketing, as well as the Reseller, ISV, and Services Partners that cater to the small & mid-market customers. Jack Braman's last role was General Manager of the Server Platform Group for the U.S. subsidiary. In this role he is responsible for overseeing the marketing and sales strategy for the Microsoft server line within the U.S. marketplace.

Mr. Braman brings to his position over 25 years of experience, 20 of those years with Microsoft, in developing and executing successful sales and marketing strategies in the information technology industry. Prior to his current position, he was the General Manager for Microsoft's Desert Mountain District where he led sales, marketing, systems engineering, and consulting across seven states. Other roles within Microsoft have included serving as Director of the West Region Education Group, General Manager of U.S. Enterprise and Channel Sales, and Sales Manager for the Phoenix and Southern California territories.

Prior to joining Microsoft, Mr. Braman worked with Nynex Business Centers, where he was responsible for customer account sales in Orange County. He also served as a marketing sales representative for the IBM Product Centers towards the beginning of the Personal Computer era. Mr. Braman earned a B.S. in management from Pepperdine University and currently resides in Charlotte, North Carolina.

Gordon Mangione, Vice President, Advanced Products Group Citrix Systems, Inc.

Gordon Mangione leads the Advanced Products group at Citrix, where he is specifically focused on building products for the Microsoft platform. Previously, Mr. Mangione was responsible for product operations at XenSource where he was focused on engineering, support and services for XenServer. Prior to that, Mr Mangione held several VP roles at Microsoft, where he was responsible for Exchange, SQL Server and incubating the security business.

Lunchtime Industry Breakouts

Over lunch, attend an Industry roundtable session for Legal/Professional Services, Manufacturing/CPG, Distribution/Logistics/Retail, Architecture/Engineering/Construction or Not-For-Profit segments. Network with peers and discuss issues, trends and challenges in your industry—or, attend a lunch session on Cloud Computing & Software as a Service.
